

My husband and I live in a small, rural, community. K-LOVE radio is always playing at our home, vehicles, office and our own business. Because we live 30 miles from the town that broadcasts K-LOVE, if it were to be displaced by an LPFM, we would not be able to receive it. We have four boys. With all of the things that our children have to endure today, I don't know what we would do without K-LOVE. We are personal sponsors of K-LOVE as well as our business. Many people in our church and community also financially support K-LOVE. Please do not displace them by an LPFM broadcaster.
